

**You care about the food you eat.
So do we.**

Halal-N-Tayyib's commitment to humane farming is recognized by a Fund-a-Farmer Grant, a national award provided by Food Animal Concerns Trust (FACT).

Rachid Chafyaay and his family own and operate Halal-N-Tayyib, a sustainable farm in Macon, GA.

Halal-N-Tayyib raises Halal grass fed beef, lamb, goat, and organic pastured chicken. They sell their premium Halal grass-fed meat shares directly to Georgia residents exclusively through their website, in person, and over the phone

In recognition of their commitment to humane farming, Halal-N-Tayyib received a Fund-a-Farmer Grant to install high-tensile electrified wire and interior portable electric fencing to rotationally graze their cows, sheep, and goats.

"We support an ethical and healthy alternative to factory farming, a sustainable agriculture that is better for animals, better for farmers, better for land where farmers raise animals that produce meat that is better for us: healthy to eat and tastes great!"

FACT's Humane Farming Program, funded by informed consumers like you, offers grants, scholarships, mentorship, and free webinars to farmers and ranchers who seek to raise their animals humanely.
